🚀 AI Voice Assistant Development Workshop – April 25-27, 2024 📅 Dates: April 25-27, 2024 🕒 Duration: 3 days (3 hours per day) 🧑‍🎓 Batch Size: Limited to 10...

📍 lu.ma / Apr 25

AI Voice Assistant with Python

Learn to turn speech into intelligent conversations with Python, OpenAI, and LiveKit!

3-Day Intensive Course Timeline

 **Each day is 3 hours of hands-on learning**

Why This Course is Special?

- ✓ Hands-on coding sessions – Learn by doing, not just theory
- ✓ Real-world projects – Build an AI assistant you can showcase
- ✓ Industry expert mentorship – Learn from AI professionals
- ✓ AI Certification – Get certified upon course completion

Skills You Will Learn

Who Should Join?

- Students & Beginners (Ideal for with basic programming knowledge)
- Beginners eager to learn AI and voice processing
- Students & young professionals looking to build real AI projects

Day 1: Development

Writing the first version of your AI assistant

Day 2: Deploy

Improving AI with real-time interaction features
Testing & debugging your assistant

Day 3: Showcase & Final Touches

Final demo presentations by participants
Certification & Feedback

💡 Why Learn With Us?

Practical Learning – We focus on real-world AI applications

- ✓ Expert Guidance – Learn from industry professionals
- ✓ AI Research & Mentorship – Become part of our growing AI community
- ✓ Certified Program – Earn an industry-recognized AI certificate
- ✓ Flexible Learning – Live classes + recorded content
